PROFESSIONAL SUMMARY

Senior/Lead software engineer with 15+ years building robust, scalable, mission-critical systems, with strong expertise in .NET and AI-assisted coding, Spec-Driven Development (SDD) and SDLC setup. Deep hands-on experience in ERP, resource accounting, logistics, supply chain and procurement, offline-capable client synchronization, role-based workflows and monitoring. Owns architecture end to end: C4, ADRs, fitness functions and FR/NFR, backend development and data design. Comfortable across Azure, AWS and restricted-network deployments.

AI-ASSISTED ENGINEERING & SDLC

- **AI-assisted coding:** proficient with Codex, Claude Code and GitHub Copilot for implementation, refactoring, test development and code review; validates generated code against requirements and architecture constraints.
- **Spec-Driven Development (SDD):** uses **Spec Kit** and **OpenSpec** to structure requirements, specifications, implementation plans and development tasks for AI-assisted delivery.
- **SDLC setup:** defines development workflows from requirements and planning through implementation, testing, review and delivery; integrates AI coding tools into a structured engineering process.

TECHNICAL SKILLS

Backend: .NET, ASP.NET Core, Web API, MVC, Entity Framework, ASP.NET Zero / ABP, WCF, Web Forms (legacy)
Architecture & design: System design, multi-tier systems, Clean Architecture, modular monoliths, service-based architecture, DDD, TDD
Architecture documentation: C4, UML, Architecture-as-Code, functional and non-functional requirements (FR/NFR), ASR/ADR, fitness functions; draw.io, Lucid, Miro
Data & storage: SQL Server, PostgreSQL, MongoDB, Cassandra, MySQL, SQLite, Qdrant (vector)
Messaging, caching & background jobs: Kafka, RabbitMQ, Redis, Hangfire
Azure: Functions, Service Bus, Cosmos DB, Table Storage, Bot Framework, AI Search, AI Foundry
AWS & deployment: Lambda, S3, Docker, Linux; restricted-network environments
Applied AI: Generative AI, LLMs, Agentic AI, machine learning, RAG, Agentic RAG, MCP, Semantic Kernel, Microsoft Agents Framework
Frontend & desktop: TypeScript, JavaScript, Angular, AngularJS, jQuery, HTML/CSS/LESS, WPF, Windows Forms
Development tools: Visual Studio, VS Code, Codex, GitHub Copilot, Claude Code

PROFESSIONAL EXPERIENCE

Lead Software Engineer

Rocket Harbor - Lviv Region, Ukraine | Dec 2017 - Present

- Own system architecture, data models and technical decisions for enterprise ERP, logistics and supply-chain platforms; document designs with C4, ADRs and fitness functions.
- Develop **CubeMonk** for inventory, procurement, order and shipment tracking, and resource accounting; contribute to **Cerve** (ERP and logistics) and **Cend** (ERP and procurement).
- Build **Tektiles**, an ERP platform for managed service providers covering asset, vendor and service management.
- Designed and built **MSP Customer Agent**, an agentic AI assistant on Microsoft Foundry using LLMs, RAG, Semantic Kernel and MCP to automate customer support and decision workflows.

PROFESSIONAL EXPERIENCE - CONTINUED

Senior Software Engineer

Neadevis - Lviv, Ukraine | Mar 2016 - Aug 2017

- Built a real-time collaborative web-document editor with concurrency control, conflict resolution and live synchronization.
- Delivered **Backup Radar**, a backup-monitoring and alerting product aggregating status and notifications across multiple client environments.

.NET Developer

Artelogic - Lviv, Ukraine | Mar 2013 - Mar 2016

- **Vehicle Inspection Management System:** owned architecture and database design; built the backend and offline-capable Android, iOS and Windows 8 clients, including a synchronization layer, role-based access and configurable wizard workflows.
- **Web Synapse / Yard Manager:** developed real-time yard and shipment logistics management with event tracking and time-sensitive notifications.
- **Titan SolvOne / Work Order Manager:** built a centralized facility-operations dashboard for vendor and technician management, dispatch tracking, completion metrics and invoicing.
- **InkProPlus / Mover Technologies:** owned architecture and database design for scalable business- and lead-management platforms.

EARLIER & FREELANCE EXPERIENCE

.NET Web Developer | Freelance | Jan 2017 - Dec 2018
Freelance .NET web development alongside full-time employment.

.NET Developer | Abto Software | Dec 2011 - Aug 2012
Microsoft Dynamics CRM solutions.

.NET Developer | ViSoft GmbH | Jul 2011 - Dec 2011
Silverlight applications.

.NET Developer | Edvantis | Apr 2010 - Jul 2011
ASP.NET web development.

.NET Developer | DMD Ukraine | Dec 2007 - Jan 2010
Windows Forms desktop applications and web services.

CERTIFICATIONS
